# Kramora AI Homepage Content Architecture

Strategic Blueprint, Section Hierarchy & Content Delivery Roadmap

**Client:** Kramora AI Leadership
**Author:** Senior Web Information Architect
**Scope:** Full Homepage Redesign Blueprint
**Date:** October 2026 (Q4 Review)

## Purpose of this Document

This document outlines the proposed structural sequence, messaging hierarchy, component taxonomy, and cross-section CTA relationships for the new Kramora AI homepage. It serves as an architectural blueprint before design and engineering begin.

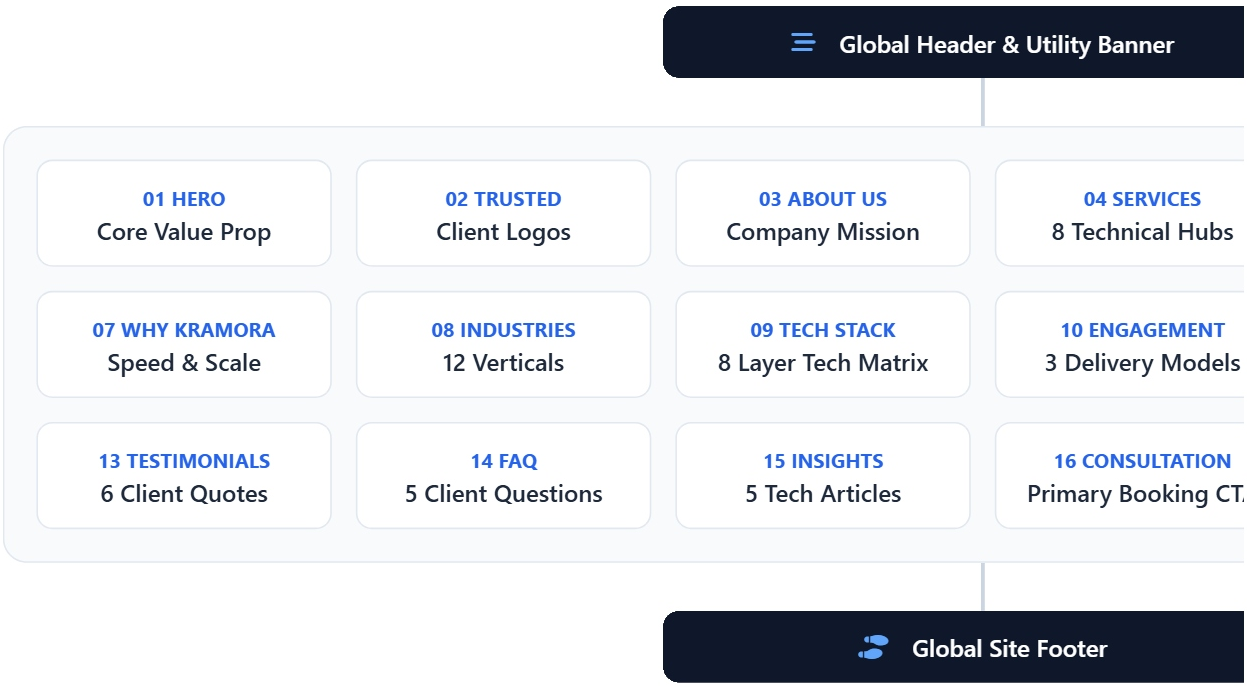

### CLASSIFICATION LEGEND

- **Supplied Content** (Verified Source)
- **Proposed Content** (Subject to Approval)
- **Action Required** (Confirm with Client)

## Level 1: Homepage Overview Sitemap

High-level sequential flow from Global Header through Sections 01–18 to Footer

`18 Homepage Sections`

SHARED

## Global Header Component — Navigation & Utility Header Bar

Site-wide Navigation

### TOP ANNOUNCEMENT BAR

"Now booking Q3 engagements — limited capacity for new AI builds"

Supporting: "We reply within 24 hours"

### BRAND IDENTITY

Kramora AI / Kramora AI Technology

SEC 01

## Hero: AI-First Technology Studio

### MAIN HERO COPY

# "We build intelligent products that scale."

"Kramora designs and engineers intelligent products, data platforms and autonomous systems — helping startups and enterprises turn artificial intelligence into real, durable advantage."

**Primary CTA: Book a consultation →**

Secondary CTA: Explore solutions

5.0 Rating • Trusted by 27+ teams worldwide

### CORE CAPABILITY NODES

**AI & ML**
Agents, LLMs, RAG

**Automation**
Workflows, RPA

**Cloud**
AWS, Azure, GCP

**Optional Visual/Content Concept Node: AI Engine Live Card** — Client Confirmation Required

```
Contains: "Kramora Intelligence" | "Model performance · last 24h: +34%" | "Intelligent automation engine · 12 models · 4 pipelines running [Active]"
```

*Note: Operational figures are proposed concepts and must be verified by client prior to production launch.*

## SEC 02 Trusted Companies (Social Proof)

Clean text node representation of client brand logos (Duplicates removed):

| | | | | |
|---|---|---|---|---|
| Aspenware | CadenceMD | Daysaver | EMI Health | GCommerce |
| MyCustomerData | Nev's Ink | Washington Publishing | ProStar Geocorp | Rocky Mountain HP |

## SEC 03 About Kramora AI

**HEADING & EXECUTIVE DESCRIPTION**

### “A technology & innovation company, built for growth.”

“Kramora AI helps businesses transform ideas into intelligent digital products. With a strong engineering presence in India and strategic leadership from the United States, we specialize in AI, automation, cloud technologies, web and mobile applications, blockchain solutions, and enterprise software development. Our mission is simple: build innovative technology that creates measurable business impact.”

**4 CORE COMPANY PRINCIPLES**

**1. AI-first by default**
Intelligence baked into the architecture — not bolted on at the end.

**2. Senior, in-house talent**
No outsourced black boxes. Builders who own the outcome.

**3. Outcome-obsessed**
We measure success in business impact, not slide counts.

**4. Transparent & fast**
Weekly demos, clear communication, momentum from week one.

**Brand Tagline: "AI-First. Innovation-Driven. Built for Growth."**

SEC 04

## Services: Eight Core Capabilities

Exactly 8 Nodes

### “One partner across the entire modern stack.”

“From generative-AI agents to data platforms, cloud infrastructure and managed engineering pods — the capability of a global consultancy, with startup velocity.”

#### 01. Artificial Intelligence

ML models, computer vision, predictive analytics and NLP — engineered for production scale.

`Vision | Predictive | NLP | MLOps`

#### 02. Generative AI & Agents

LLM applications, autonomous AI agents and RAG systems grounded in your own data.

`Agents | RAG | LLM Apps | Fine-tuning`

#### 03. Data Engineering

Pipelines, warehouses and real-time streaming that turn raw data into a trusted asset.

`ETL/ELT | Streaming | Warehousing`

#### 04. Web & Mobile Apps

High-performance web platforms and native-grade mobile apps, engineered with elite quality.

`Next.js | React Native | Enterprise`

#### 05. DevOps & Cloud

Cloud-native architecture, Kubernetes, infrastructure as code, and CI/CD across AWS, Azure, GCP.

`Kubernetes | Terraform | Multi-cloud`

#### 06. OCR & Document AI

Intelligent document processing that turns unstructured paperwork into structured, usable data.

`IDP | OCR | Data Extraction`

#### 07. Enterprise Automation

Workflow automation and intelligent orchestration that removes manual, repetitive work.

`Workflow | RPA | Orchestration`

#### 08. IT Staff Augmentation

Dedicated developers, offshore teams and managed pods that plug straight into your roadmap.

`Dedicated Teams | Pods | Offshore`

## SEC 05 Solutions: Business Challenges & Outcomes

PROPOSED CONTENT

**Strategic Distinction:** Services = *What* Kramora builds (Capabilities). Solutions = *Why* clients hire Kramora (Business Outcomes).

***Proposed section content — subject to client approval before publication.***

### 1. Build AI-Powered Products

Turn ideas into intelligent applications, AI agents, and data-driven products.

### 2. Automate Business Operations

Reduce repetitive manual work through intelligent workflows and orchestration.

### 3. Modernize Cloud Infrastructure

Improve deployment, scalability, reliability, and cloud operations.

### 4. Unlock Business Data

Build reliable data pipelines and turn fragmented information into usable insights.

### 5. Transform Document-Heavy Processes

Extract and process information from documents using OCR and Document AI.

### 6. Extend Engineering Capacity

Add experienced engineering talent through dedicated teams and managed pods.

## SEC 06 How We Work (4-Stage Process Flow)

### "From idea to production — in four moves."

**1**

**Discover**

"We pressure-test the idea, map the data, and define what success actually measures."

**2**

**Design**

"Architecture, UX and an AI strategy that's feasible and durable — not just impressive in a demo."

**3**

**Build**

"Senior pods ship working software every week, with you in the loop at every step."

**4**

**Scale**

"We harden, monitor and optimize for production — then help you grow the team around it."

## SEC 07 Why Kramora (Key Differentiators)

### "We get things done — right, and fast."

**2–3× Faster**

**Speed Advantage**

Senior, AI-fluent engineers who ship working software every week — not 80-slide decks.

**97% Retention**

**Client Retention**

Teams keep coming back. Nearly all of our clients return for their next build with us.

**24/7 Delivery**

**Global Delivery Model**

Distributed pods across 22 countries keep your roadmap moving around the clock.

⚠ Verification Note: Performance and company statistics (e.g. 2-3x speed, 97% retention, 22 countries) require client confirmation before publication.

## SEC 08 Industry Expertise (12 Sectors)

12 Industry Nodes

### "Domain depth that turns tech into outcomes."

**1. Healthcare**
HIPAA-ready clinical AI

**2. FinTech**
Risk, fraud & underwriting

**3. Insurance**
Claims & policy automation

**4. Retail & E-com**
Personalization at scale

**5. Logistics**
Routing & forecasting

**6. Education**
Adaptive learning

**7. Government**
Secure, compliant systems

**8. Manufacturing**
Predictive maintenance

**9. Real Estate**
Deal & document automation

**10. Energy**
Grid & asset intelligence

**11. Travel**
Dynamic pricing & booking

**12. Media**
Content & recommendation AI

SEC 09

## Technology Stack (8 Layers)

### “The right tool for every layer.”

Interfaces that load fast and feel instant.

**1. Frontend Stack (Supplied)**

React | Next.js 15 | Angular | Vue | Svelte | TypeScript | Tailwind | Framer Motion | Redux | Three.js

**2. Backend**

Content to confirm

APIs, Microservices, Node/Python/Go

**3. AI / ML**

Content to confirm

PyTorch, TensorFlow, OpenCV

**4. AI Tools & Platforms**

Content to confirm

LangChain, LlamaIndex, Pinecone

**5. Data Engineering**

Content to confirm

Spark, Snowflake, dbt, Kafka

**6. Cloud**

Content to confirm

AWS, Azure, Google Cloud Platform

**7. Blockchain**

Content to confirm

Solidity, Web3.js, Smart Contracts

**8. DevOps**

Content to confirm

Docker, Kubernetes, Terraform, CI/CD

## SEC 10 Engagement Models

### "Work with us, your way."

**Fixed Scope — Project Delivery**

"A defined build, shipped end to end. Ideal when you know the destination and want it done right."

- Clear fixed scope & timeline
- Full design-to-deploy ownership
- Predictable milestone-based pricing

MOST POPULAR

**Dedicated Pods**

"A senior, cross-functional team embedded in your roadmap — scaling up or down as you grow."

- Senior cross-functional team
- Scales up or down dynamically
- Direct daily collaboration

FLEXIBLE

**Staff Augmentation**

"Plug elite AI, full-stack, cloud or data engineers straight into your existing team."

- Vetted senior engineers
- Plugs into existing team
- Start in days, not months

## SEC 11 Featured Work / Case Studies

### "Measurable impact, not just deliverables."

Insurance · Generative AI

Global Delivery

**Document-intelligence platform**

"Replaced manual claims data-entry with an AI document pipeline — cutting processing time dramatically while improving accuracy."

`Reported Metric: 4.2k documents/hour processed`

**Additional Case Studies**

Content required from client. Only 1 case study supplied in original source copy.

CTA Link: All case studies → Works Portfolio Page

## SEC 12 Global Delivery Model

### "US-led, India-engineered, globally connected."

"Strategic leadership in the United States, an engineering hub in India, and partners in Europe — one connected team delivering around the clock."

**United States**
**Strategic Leadership**
LA, Los Alamos, Chicago, Atlanta (and Issaquah, WA address in footer)

**India**
**Core Engineering Hub**
Delhi & Bengaluru Development Centers

**Europe**
**Connected Network**
Germany & The Netherlands delivery partners

**Flagged Discrepancy:** Location details vary across source text (Issaquah vs LA/Atlanta). Flagged for client address reconciliation.

## SEC 13 Client Testimonials (6 Preserved Quotes)

6 Complete Quotes

### "Client retention — from the CTOs & founders we've delivered for."

**Retention Claim Flag: 96% vs 97% conflict**

*"They designed and implemented a complex integration for a large sports organization — professional, thorough and reliable at every step."*

**Stacy Heidte**
Project Manager · Aspenware

*"As an early-stage Seattle startup, we relied on the team to design and build a key technology component. Outstanding quality and partnership."*

**Bonnie Cech**
Founder & CEO · CadenceMD

*"They architected and delivered crucial cloud components for our platform. Their Azure expertise was exactly what we needed."*

**Phil Brock**
CTO · Daysaver Inc.

*"They kept us compliant with difficult new CMS guidelines as we took on federal exchange business. Their healthcare integration expertise was critical."*

**Joe Campbell**
CIO · EMI Health

*"The relationship has been enormously beneficial — the quality of work and depth of Azure integration expertise is simply unmatched."*

**Jason Popillion**
CTO · GCommerce Inc.

*"They migrated 50+ applications from our data center to Azure — full complexity handled with precision, zero disruption."*

**Jim Yanco**
President · MyCustomerData

SEC 14

## FAQ (5 Questions)

Answers to Confirm

### “Questions, answered.”

**1. What does "AI-first" actually mean for my project?**

Answer content to confirm

**2. How quickly can you start?**

Answer content to confirm

**3. Do you work alongside our existing in-house team?**

Answer content to confirm

**4. How do you handle data security and compliance?**

Answer content to confirm

**5. What if I only need a couple of engineers, not a full project?**

Answer content to confirm

SEC 15

## Insights (5 Technical Articles)

### “Ideas from the frontier of applied AI.”

“Field notes, engineering deep-dives and strategy from the team — written by the people doing the building.”

CTA: Visit Insights Hub →

Article 1 · Generative AI

**Beyond the chatbot: designing AI agents that actually do the work**

“Most enterprise AI projects stall at the demo. We unpack architecture patterns…”

9 min read · Engineering

Article 2 · Data Engineering

**The data foundation your AI strategy is missing**

“Great models fail on messy data. Here's how we design pipelines that keep AI honest.”

Article 3 · Industry

**RAG in regulated industries: a practical compliance playbook**

“Retrieval-augmented generation done right for healthcare and finance.”

Article 4 · Cloud & DevOps

**Shipping ML to production without 3 a.m. pages**

“The MLOps guardrails we put around every model we deploy.”

Article 5 · Strategy

**Build vs. augment: choosing the right engagement model**

“A founder-friendly framework for how to actually staff an AI build.”

SEC 16 — CONSULTATION CTA

## “Let's build something intelligent.”

“Free 30-minute strategy call. Bring a problem, a product idea, or a hiring gap. We'll map a path — no slide-deck sales pitch.”

Primary CTA: Book a consultation

Secondary CTA: Download capability deck

# Items to Confirm Before Publication

12 Required Client Reconciliations & Content Confirmations

The following 12 items contain statistical claims, missing content blocks, or source copy discrepancies that must be explicitly reviewed and confirmed by Kramora AI leadership before final site production:

**1. Experience & Expert Stats**

Confirm actual years of experience and team count (source contained placeholders like 0+).

**2. AI Engine Live Metrics**

Verify +34% performance, 12 models, and 4 active pipelines numbers in Section 01.

**3. Retention Percentage Claim**

Reconcile conflict between 96% retention (Section 13) and 97% retention (Section 07).

**4. US Office & HQ Address**

Confirm official US HQ location wording (Issaquah, WA vs. LA / Atlanta / Los Alamos).

**5. Global Delivery Footprint**

Verify the "distributed pods across 22 countries" statement.

**6. Speed Benchmark Claim**

Confirm "2–3× faster than internal teams" statement for marketing compliance.

**7. Star Rating & Client Count**

Confirm 5.0 rating source and "27+ teams worldwide" claim in Hero section.

**8. FAQ Answer Content**

Supply full copy answers for all 5 FAQ questions in Section 14.

**9. Additional Case Study Copy**

Provide 2–3 additional case study details if more than 1 featured study is desired.

**10. Proposed Solutions Themes**

Approve or adjust the 6 proposed business outcome themes in Section 05.

**11. Technology Stack Layers**

Provide specific tool lists for Backend, ML, Cloud, DevOps, Blockchain, etc.

**12. Official Brand Naming**

Confirm primary name: "Kramora", "Kramora AI", or "Kramora AI Technology".
